## R&D Cell

### Aim

- To promote Faculty members and students for research activities in the field of Engineering science and Technology.
- To create research awareness amongst our faculty members and students.
- To facilitate mutual cooperation between researchers for interdisciplinary research.
- To establish linkages among different industrial R & D cell
- To work for betterment of society through R&D cell.

### Objectives

- To organize various events like National and international conferences/seminars, workshops on research methodology and patents, symposia, guest lecturers in order to achieve the pre-stated aim enhancing the research awareness.
- To have faster collaboration and interaction with researchers working on disciplinary and interdisciplinary research.
- To encourage every faculty member for research proposal writing and to participate in R&D activities leading to Doctoral degree.

### R&D Activities

- Organizing guest lecturers delivered by eminent researchers from industry and academia.
- Deputing faculty members for higher studies and collaborative research to National and International institutes.
- Extending opportunities to faculty members and students doing their projects to participate various projects funded and sponsored by the various apex bodies.
- Our faculty members are actively involved in various R&D activities like writing research proposals. Publishing research papers in peer reviewed research journals, presenting research papers in National and International Conferences, delivering talks in Workshops and Conferences, organizing National Conferences, STTP's and Workshops for faculty.
- Organizing Paper presentation contest for students at national level.
- Organizing various extra and co-curricular activities for students and faculty members from time to time.
